

Photo Permission Form

Each year the National Association of University Women, Southwest Sectional, recognizes young women's and men's achievements in the local newspapers, the National Association of University Women Newsletters and internal recruiting materials. This year we also have the opportunity to recognize your child's achievements on our National Association of University Women - Southwest Sectional website. Each Southwest Sectional branch has a section of the website that highlights events that are happening in the branch and community. For your child to have a picture in the newspaper, newsletter, promotional materials or on the website, you must give the National Association of University Women permission to do so. Below, you will find a permission form that will allow your child's picture to be published. We all want our children recognized for the great achievements they are making and the wonderful things they are doing in their community.
